

Twin City Development
270 Main street
Waterkloof Gardens
Pretoria

To whom this may concern

Twin City Development is a property development company. We have developed commercial and residential property for the past 40 years across South Africa and across border.

We have recently developed a shopping mall just outside Pretoria, called Hebron Mall. The main contractor on this development, was NJW Building.

Although NJW Building was a newly registered entity when the contract started, Twin City Development had many years of experience working with the three company directors, namely Nick van Deventer, Cobus Mouton and Zampie van Heerden, and knew we could rely on them to execute the proper construction of the shopping mall.

The project went extremely well, both with reference to quality and time management. In fact, NJW were always ahead of the contractual program, and therefore had more than enough time during the project to attend to quality or design challenges that made the project run smoothly.

NJW proved that they can develop large projects on tight deadlines, on time and within budget. We were so impressed with their work that we already appointed them for the construction of our new development called, Mompoti Mall in Vryburg, in the Northwest Province.

We would recommend NJW for any building project, due to their capability and confidence to deliver exceptional work.

Regards

Johan van Wyk
